NO

There is no list with blocked addresses in smart contract.

1.10 It is generated contract?
NO

This contract is not from generator, probably it was written from scratch by someone.

1.11 How contract was funded (DEX, CEX, TornadoCash etc.)?
External Account

Contract was funded from external address, managed by private key.

2. Owner:

2.1 It is a contract or external address?
External address

Centralized management, that can possess risks.
Owner:
0xf477F4a37893Bc36FbC7E5be0603407cc7F011f4

2.2 Is deployer of this contract?
YES

Current owner also deployed this contract on the
Ethereum blockchain
.

2.3 Are management keys burnt?
NO

Centralized management, that can possess risks

3. Liquidity:

3.1 Available on Uniswap?
YES

Uniswap: $LPOOL
Pool: ETH/LPOOL
DexTools: $LPOOL

3.2 Is locked (TeamFinance, UniCrypt)?
Partially

UniCrypt: Locked (about 18% of total LP tokens
Team Finance: Not locked

4. Holders:

4.1 Is Uniswap first?
NO

Uniswap is 6th biggest hodler, 1st is
0x8a1ba492c2a0b5af4c910a70d53bf8bb76c9a4c0
which is *LaunchPoolStaking* staking contract (This
review do not cover this contract).

4.2 Is owner a main holder?
NO

Contract owner is not the biggest holder $LPOOL
tokens..
